ABOUT SAKURA

To be human is to be uniquely creative. We have a drive to create—new ideas, stories, products, art, and more. While technology will change the way we live, only we as humans have the particular ability to imagine and unlock possibility. At Sakura of America, we foster this incomparable human capability to think, dream, experiment, and connect.

We know everyone is capable of creativity. This trait is within everyone, not just select people. Whether you are using our products for artwork, expression, problem solving, storytelling, or organization, creativity is at the core—allowing us to connect with ourselves and with others. We believe if you foster your creative abilities, you can reach your full potential.

We encourage people to take a moment to explore how creativity unlocks new perspectives, self discovery, and human connection.

Sakura—A world of possibility powered by human creativity.

GLAZE®

Glaze is the first and only pen of its kind to offer 3-D ink and glossy, vibrant colors. The dimensional ink leaves a raised ink line for writing with shiny texture. In addition to paper, Glaze pens can write on nonporous surfaces such as plastic, coated paper, acetate, vellum, and glass. Create a stained glass effect by using on translucent and transparent surfaces. Glaze ink also resists water and can achieve a batik look. Glaze's shiny colors and texture looks similar to heat embossing or professional printing without the extra fuss. Try Glaze Clear for a subtle effect that shines in light.

Note: Glaze is a special craft pen with ink that flows thickly and takes time to dry, therefore it is not ideal for any lengthy writing. Drying time depends on the surface—from a few minutes on paper, to 10 minutes on glass.

SOUFFLÉ®

The soft color and raised line of Soufflé add dimension to DIY craft projects. Three dimensional (3-D) ink leaves a raised ink line for writing you can feel. Soufflé pens color on plastic, coated paper, acetate, vellum and glass. One-of-a-kind, 3-D Soufflé ink comes in soft pastels and white, all of which dramatically stand out on dark backgrounds. No need to shake, pump or squeeze – just write slowly to let ample ink flow from the tip and allow time to dry completely.

Note: Soufflé is a special craft pen for coloring or lettering. Since the ink flows thickly and takes time to dry it is not ideal for any lengthy writing. Drying time depends on the surface and amount of ink and varies from. White Soufflé ink will appear clear until it starts to dry.

QUICKIE GLUE™

Quickie Glue has brought the writing ease of a ball-point pen to apply glue. Place glue precisely where it is needed to hold the smallest embellishments. Shake-free and squeeze-free, Quickie Glue lays down a smooth line without uncontrolled spreading or globbing.

Can't decide where to glue an item? Temporarily place and move objects around. To create a temporary bond, allow a few minutes of drying time before securing the items together. Blue glue color indicates bond is permanent, and white glue color indicates a temporary bond. Write words with glue, then use glitter or embossing powder. Decorate scrapbooks, art journal pages, cards, stationery, and collages. Quickie Glue is also excellent for handmade quilling projects.
